Acoustic Systems Modular Music Practice Rooms Standard Room Sizes

Acoustic Systems rooms are based on seven standard widths and four standard lengths to produce 22 different room sizes with two alternative internal height options of either 91" (2311mm) or 78" (1981mm). Doors would be STC43 rated 2" (50mm) thick, fitted with a positive latch handle and can be configured with either a 32" (813mm) or 36" (914mm) wide clear opening. The door can be uprated to STC47 3/2" (89mm) thick at extra cost. Rooms can also be supplied with isolated floors if required. The rooms include forced draught ventilation and the provision of a vision panel in the door. Additional windows can be provided if required.
